

## Inclusive Design Platform for Economic Inclusion

### Looking for partners to participate in:

- An emerging future-proof, sustainable industry—Designing for Diversity
- A multi-sided platform delivering what you need—how, where, when you need it—using global networks.
- Addressing the needs of consumers at the margins by engaging producers and suppliers at the margins.
- Reducing barriers to market entry for Indie developers, small enterprise and youth entrepreneurs.
- Engaging unemployed youth in service entrepreneurship.
- Creating a global pull market platform to address income disparity.
