Today is Thursday May 25th

I spent 20 minutes with the <GPII preference setting tool> today.

I adjusted the following preferences:
- Text Size (14pt)
- On-screen-keyboard (ON)

Today I feel:
Example: finish my math homework
Example: make my project cover page

My Preferences

To help you collect data, you can enter a question here that you would like to ask yourself on a regular basis.

Example: how many hours of sleep did I get last night?
