

Email sent to participants week prior to workshop

NOTES:

- Avoid shortened URLs and anchor text for external links. Some firewalls will not allow emails through with shortened URLs or anchor text. Try using full URLs within the body of the email. See examples below.
- Some firewalls block Google Doc links. For example, the Province of Ontario (10/2017) emails (@ontario.ca) tend to not allow emails through with a Google Doc link.

BODY OF EMAIL:

Greetings everyone,

This is a friendly reminder that the Canadian Accessible Procurement Workshop is next week.

This federally funded event is bringing together relevant stakeholders and experts with the goal of informing recommendations for a Canadian approach to standards and regulations for federal public procurement of accessible information and communication technologies (ICTs).

The event will be moderated and documented for a report that will be submitted to the Federal Government of Canada, Office for Disability Issues (housed within ESDC—Employment and Social Development Canada).

We look forward to your voice being at the table.

Please find below, in the body of the email, the event agenda for your reference.

The agenda is also available on the IDRC wiki website. <https://wiki.fluidproject.org/display/fluid/Canadian+Accessible+Procurement+Workshop+AGENDA>

For the Workshop discussion questions please follow this link (https://docs.google.com/document/d/1VLUlbcAdaQ6rJIATtYI5f8I8mJ8x_r5iKIgoP87kjs/edit) or you can download the attached Word document titled Accessible Procurement Workshop Q&A Live Working Document.

REMOTE PARTICIPANTS:

If you are behind a firewall or have issues connecting, please join by teleconference at:

Phone in: 416-343-0136
Conference ID: 3616080

Desktop users need to install the VidyoDesktop application prior to joining the meeting. If you already have installed VidyoDesktop please skip these instructions and click on the meeting URL in step 3.

1. Download the VidyoDesktop application from <https://conf.inclusivedesign.ca>
2. Install and start VidyoDesktop
3. Join the meeting by clicking the meeting URL: <https://conf.inclusivedesign.ca/flex.html?roomdirect.html&key=0CYlo1KzKA>

Mobile users will be prompted to install the Vidyo mobile app after step 1. and will not need to proceed with steps 2. and 3.

Please join your meeting a few minutes early in case you need to make mic or camera adjustments in the application.
