

(SJRK) January 29, 2019 Partners Meeting

Present: Dana, Michelle, Avtar, Silvia, Tata, Liam

IDRC

- Website resources page <https://www.sojustrepairit.org/resources/>
 - Created several new categories and added additional partner resources
 - Adding expandable and collapsing sections and search soon
 - Not just the resources we've created on the project - any related resources
 - What about our idea of an Events section? We could include past and future events - Silvia has many pictures and videos, also Karisma's events
 - Ability to send to an anchor? Break page into sections - looks like each section is about a page - talk about the different categories - allow people to go directly to a category
 - Currently have anchors in the markup
 - Eventually will have collapsed categories like the floe resources page
 - Collapsed categories would satisfy this
 - Maybe add coloured background alternating to break up the different sections - make it easier to follow - could use the shapes/colours of the shapes to group the sections
 - Category descriptions are lighter weight than rest of text - make heavier?
- Website partner's activities https://docs.google.com/document/d/1p_ByuBo723hxTQcf2kXO0DX-yDu_oqWtmlkTkzgrb4Q/edit?usp=sharing
- Storytelling Tool <https://stories.floeproject.org/>
