SJRK meeting notes - Sept 26

Logistics:

- hector silvia pilar confirmed
- silvia arrives on the 7th but has a place to stay until the 10th
- catalina?
- james confirmed
- 2 houses reserved
- shea? from coleman institute - instead of lizabeth?
- 1st house booked night of 14th leaving on 15th
- 2nd house not sure of 15th - need to sort this out
- hector arriving on 9th
- James arriving on the 8th?

Plan for the Day:

- 10-3 on the day?
 - Jutta will provide a kind of intro to inclusive design and relation to SJRK project
 - Plus some framing for rest of discussion - invisible disability?
 - Those excluded from traditional schooling
-
- a group timeline exercise seems useful - so we can all see each others timelines / objectives and then determine overlaps and ways of supporting each other
 - potentially w the different work tracks as distinct and interdependent facets
 - also stating our work packages as smart goals, sharing the milestones, indicators would be nice, so we have a common vocabulary and ways of measuring our impact and process
 - it would also be nice to get outside and maybe spend sometime in a park
 - Silvia: (10:38 AM)
 - Yes Liam!!
 - Liam: (10:39 AM)
 - maybe setting up a glossary of terms for the purposes of this project so we have common vocabularies and understandings of things
 - OER? Open Education Resource
 - unanswered questions - the current known unknowns in each of our work
-
- Liam - I dunno about the others, but we could aim to see some of the spots around Toronto
 - Re: Saturday activities I also wanted to confirm that - I currently have the Saturday also blocked for this - and it will remain so unless / until hear otherwise
 - we could also (potentially) aim to organically engage with each other (over the lunch times for example)
-
- could go to Grange park if the weather is nice
 - how can we avoid four walls and fluorescent lights?
-
- Silvia - AI and machine learning discussion?
-
- Brainstorm the resources that we want to include
 - Where are the gaps
 - Where do we go to fill those gaps
 - Start a design challenge event?
 - Research
 - How do we do assessment models of co-design?
 - What do the youth groups want/require/need in order to be welcoming to youth with LD
 - Deconstruct how performance is measured and evaluated
 - Do a critique of status quo?
 - Funders have expectations
 - diversity-supportive measures and quality metrics as a resource for us as well as for the youth groups
 - Hewlett has made progress in this area
 - P4A project
 - Start with: What are the gaps that the youth and youth groups are feeling?
 - What are the priorities
 - Do an exercise
 - Possible to bring some of the young folks to the event? With TIG?
 - Or video conference them in?
 - Liam going to Nunavut tomorrow - can explore it
 - Make a quick video? Or audio? Less invasive
 - A quick way to submit challenges to SJRK! Using Twitter or ?
 - #sojustrepairit
 - Here is the problem, try to fix it
 - Can we open the meeting up to some of the youth groups somehow?
 - To do: which youth groups to invite and how to get them here?
 - Ping the email list for ideas from all partners
