

August 23, 2018 - Platform Coop - Meeting Notes SEWA / IDRC

- 2-day co-design sessions for each of:
 - beauty services coop
 - customer-facing app fairly straightforward, lots of examples out there
 - want more the back-end app for workers
 - members of federation
 - want governance / information dissemination / marketplace
 - probably first day more general and a larger group
 - second day smaller, more focused, concrete
- last week September not good now - Namya attending a conference
- Early Oct not good for Michelle and Dana due to DEEP conference in Toronto
- having a website is important for beauty coop
 - a very simple wordpress site for now?
 - how to host it?
 - IDRC can look at domain name etc
- discussed possible dates for co-design and festival/holiday dates in India
- week of Nov 12 or Nov 19 might be best
- we will send an idea of what we want to do in co-design sessions to Namya
- look at what we did for Bodies in Translation project
- then Namya can help us to determine how to structure the sessions best
- don't want to bring too much content or concrete ideas in, as women will likely just say - yes, ok, you know best
- want to solicit their ideas
- meet again next Thursday same time
