

Transformation Rules

DRAFT; incomplete

Format

```
{
  <target path>: [{ // array is optional
    transform: {
      type: <transform name>,
      <properties as required by particular transform>
    }
  }, {
    ...
  }]
}
```

Examples

```
{
  "dog": {
    "transform": {
      "type": "fluid.transforms.linearScale",
      "value": 3,
      "factor": 2,
      "offset": 5
    }
  }
}
```

```
{
  "dog": {
    "transform": [
      {
        "type": "fluid.transforms.linearScale",
        "value": 3,
        "factor": 2,
        "offset": 5
      },
      {
        "type": "fluid.transforms.literalValue",
        "value": "ooooops"
      }
    ]
  }
}
```
