

# Fluid 0.1 Release Status

## 0.1 Release Goals

### 1. Get the Reorderer into the hands of developers.

The Reorderer is ready to be used for a variety of drag and drop sorting tasks. The 0.1 release will provide developers with a solid snapshot of the Reorderer code, along with documentation and example code to help them use it most effectively. We'd like to see the Reorderer integrated widely into Sakai, uPortal, and other applications.

#### Tasks:

- Remove the remaining bits of legacy Lightbox code from Reorderer
- Fix drag and drop bugs
- Write documentation

### 2. Establish a release process.

The Fluid community needs a clear release process, and 0.1 will provide us with an opportunity to experiment with and establish this process. This release process will set the stage for putting out regular milestones, which will in turn make it easier to integrate our work and sync up with Sakai's and uPortal's schedules. Our goal is, over time, to automate as much of this process as possible.

#### Tasks:

- Determine form and content of release (*done*)
- Automate release process where possible
- Communicate regularly with community

## Time line

- **API Freeze:** Tuesday, November 13, 2007
- **Code Freeze:** Tuesday, November 27, 2007
- **Wiki Freeze:** Wednesday, November 28, 2007
- **Release Day:** Friday, November 30, 2007

## Fluid 0.1 Release Deliverables

Deliverable	Status	Lead
<b>Lightbox</b>		
<ul style="list-style-type: none"><li>• Prepare HTML templates and examples</li></ul>	Complete	<a href="#">Anastasia Cheetham</a>
<ul style="list-style-type: none"><li>• RSF ViewProducer</li></ul>	Complete	<a href="#">Antranig Basman</a>
<ul style="list-style-type: none"><li>• How to use the Lightbox documentation</li></ul>	Complete	<a href="#">Anastasia Cheetham</a>
<b>Reorderer</b>		
<ul style="list-style-type: none"><li>• JavaScript component</li></ul>	Complete	<a href="mailto:~michelle.dsouza@utoronto.ca">~michelle.dsouza@utoronto.ca</a> <a href="#">Joseph Scheuhammer</a>
<ul style="list-style-type: none"><li>• Prepare Example HTML &amp; CSS</li></ul>	Complete	<a href="#">Anastasia Cheetham</a>
<ul style="list-style-type: none"><li>• How to style the Reorderer documentation</li></ul>	Complete	<a href="#">Fluid Wiki Administrator</a>
<ul style="list-style-type: none"><li>• Client/server contract documentation</li></ul>	Complete	<a href="#">Anastasia Cheetham</a>
<ul style="list-style-type: none"><li>• How to extend the Reorderer documentation</li></ul>	Deferred	<a href="#">Unknown User (colin.clark@utoronto.ca)</a>
<b>UX Toolkit</b>		

• Design Patterns - Drag and drop	Complete	<a href="#">Fluid Wiki Administrator Allison Bloodworth</a>
• UX Walkthrough Protocol & Checklist	In Progress	<a href="#">Paul Zabolosky</a>
<b>Infrastructure</b>		
• QA plan and coordination	Complete	<a href="#">Eli Cochran</a>
• Release download & info page for website	In Progress	<a href="#">Barbara Glover</a>
• Tag documentation pages in wiki	Complete	<a href="#">Anastasia Cheetham</a>
• Export documentation pages to PDF	In Progress	<a href="#">Anastasia Cheetham</a>
• Tag SVN	Complete	<a href="#">Joseph Scheuhammer</a>
• Create release bundle (.zip file)	In Progress	<a href="#">Joseph Scheuhammer</a>

## Fluid 0.1 Known Issues

*This table is generated from the Fluid issue tracker and shows an up-to-date view of the current bugs affecting the 0.1 release.*
