

# Floe Roadmap 0.1

The Floe Roadmap will be integrated with the [Infusion 1.5 Release Status](#) and the IDI/CFI Roadmaps. Floe deliverables include demonstrations of the capabilities of Floe transformations.

## Floe 0.1:

- new Inclusive Learning Handbook content (video, audio, pictures)
- design work on ILH
- pulling together Infusion building blocks (FSS, UI Options, Renderer, IoC)
- working demo of ILH transforming for  
In 3 contexts: full desktop web, mobile, easy to read

## development

### 1. Transformation in the Inclusive Learning Handbook

- integrate UI Options & FSS
- create template-based application for mobile and easy-to-read views
- (content development)

### 2. Video Enhancement

- Improve Video Player—basic functionality + solid captions support
- Work alongside uSubs to improve captioning experience + integrate with Video Player

## design

1. ILH design (prep for transformations)
2. ILH transformations (desktop web, mobile, easy to read)
3. video player + audio (early thinking and sketches)
4. harder transformations (deeper thinking re: transformations needs to begin)
