

# FE - General information

## Design meetings

Design communication is done over the [fluid-work mailing list](#). Meetings about specific design issues are announced over the list and added to the [Fluid calendar](#).

Participation by everyone in our design communications over the list and in our meetings is welcome and encouraged!

Notes from some [early meetings](#) were put up on the wiki.

## Current tasks

Current and past iterations of design activities can be found in our [JIRA](#).

([Tasks were previously](#) put up on wiki pages.)

## Design repository

We keep our files in Fluid's subversion repository: <http://source.fluidproject.org/svn/design/engage>

If you're new to using subversion, see: [Subversion for Fluid designers using Versions](#)

## Production

[Design file naming convention](#)  
[Design and development process](#)

## Logo

[Fluid Engage logo](#)
