

# FSS Text - Styles

## Error rendering macro 'html'

Your Confluence administrator has disallowed the use of Javascript in the HTML macro. This setting can be changed using HTML for Confluence Configuration. Please see your administrator for details.

**NOTE:** FSS is deprecated as of 1.5

<b>All Text Examples</b>

## Styles

This paragraph is underlined.

This paragraph is bold.

This paragraph is larger.

This paragraph is outlined.

The markup and classes used to produce this example:

```
<p class="fl-text-underline">This paragraph is underlined.</p>
<p class="fl-text-bold">This paragraph is bold.</p>
<p class="fl-text-larger">This paragraph is larger.</p>
<p class="fl-input-outline">This paragraph is outlined.</p>
```

NOTE: The classes are applied to the paragraph tags and so apply only that paragraph. The class could be applied to a <div> surrounding many paragraphs to apply the style to all paragraphs.
