

Keyboard Access

The following is a list of proposed keyboard hotkeys for Decapod

- Space bar - takes a capture
- S - saves
- E - activates Edit menu and places focus on the resulting menu.
- CTRL+Z to Undo.
- CTRL+Y to Redo.
- O - activates Options and places focus on the resulting Options dialog.
- X - activates the Export menu and places focus on the resulting menu.
 - If Export is disabled due to being in Capture Mode, the tooltip should appear (and be read by any supported ATs).
- C - closes the document and brings the user back to the Dashboard.
- ??? - switch modes.
- Z - Zooms in 100%. Selecting Z again will zoom out to fit image to panel.
