

Worklist for Design Handbook

Tasks

This page contains a list of tasks - small and large - for the completion of the first edition of the Design Handbook. Please add tasks as you come across deficiencies, and mark as **Done** any tasks that you complete. We should probably create a JIRA issue that points to this list.

Current Task List

1. move accessibility in cog walkthrough to cog walkthrough DAPHNE - **Done**
2. remove accessibility in cog walkthrough from the top level design handbook hierarchy DAPHNE - **Done**
3. link to daphne's (usability evaluation questions) and the xerox heuristic checklists whenever we reference nielsen's heuristic checklist and rename it "(alternative?) heuristic evaluation checklist" & remove it from the top level design handbook hierarchy PAUL
4. delete "questions for all evaluations" page ALLISON - **Done**
5. pull out initial paragraph on Heuristic Evaluation Page ALLISON - **Done**
6. figure out what to do with the duplicated "Code Review" content (on <http://wiki.fluidproject.org/display/fluid/Code+Review> & <http://wiki.fluidproject.org/display/fluid/UX+Walkthrough+Protocols+and+Checklists>) ALLISON - **Done** (excerpted entire Code Review page into UX Walkthrough Protocols and Checklists)
7. have preparation & execution be the instructions page for a ux walkthrough, which points to the appropriate checklists on the protocols and checklist page. move the instructional content from the protocols and checklists page, make it as brief as possible and don't duplicate content. probably remove the 'protocols' on the "protocols and checklists" page - it should be on the preparation & execution page. Maybe rename prep & execution - ux walkthrough instructions ,recipe, something like that. name based on what content is there. SHARED - PAUL TO START
8. move protocols & checklists and template to be under "ux walkthrough prep & execution" ALLISON - **Done**
9. check related links to make sure that they are updated and the text still makes sense. PAUL
10. look at table of contents to see if hierarchy is represented and makes sense PAUL
11. add a few links on the FAQ page ALLISON - **Done**
12. move "Accessibility Testing Protocols and Markup inspection" to the bottom of the "Code Review" page and explain what it is ... e.g. "if you want to go deeper into this these are other things you might want to do" DAPHNE - **Done**
13. rename code review to "Code Review for Usability & Accessibility" or something like that DAPHNE - **Done**
14. Link to "Code Review" from the accessibility review protocols in the step in the process (e.g. "Step 2 (Optional): Review the HTML source code for appropriate markup") DAPHNE - **Done**
15. follow up with Mike Elledge to ask him to update the Accessibility Review Protocols child pages with references to the correct versions of software PAUL
16. Review the UX Walkthrough Report Template page. Does it correspond well to the UX Walkthrough Protocols and Checklists page? OPEN
17. enter update/delete/move content from UCD design best practices page as a JIRA task DAPHNE - **Done**
18. Remove deprecated page [UX Inspection Methods and Techniques](#) when we're sure we don't need it anymore - OPEN
19. Make sure that all pages have appropriate labels: ux walkthrough manual release cognitive accessibility protocol heuristic etc. - OPEN

Old Task List

1. Review and critique [UX Walkthrough Preparation and Execution](#) page. (someone not Jonathan or Paul). - **Done** by Daphne & Allison
2. Remove redundant and obsolete pages - those marked as deprecated and tagged with "remove_this_page".
 - [UX Inspection Methods and Techniques](#) - moved up to Current List
 - [Questions for All Evaluations](#) - moved up to Current List
3. Polish the [UX Walkthrough Protocols and Checklists](#) page. Paul still has some stuff to do here on the Code Review section. **Done** by Paul
4. Flesh out the [UX Walkthrough FAQ](#) page (Jonathan?) - moved up to Current List
5. Do some work on the [User Experience Walkthroughs](#) page. **Done** by Paul
6. Review the [UX Walkthrough Report Template](#) page. Does it correspond well to the [UX Walkthrough Protocols and Checklists](#) page? - moved up to Current List
7. Make sure that all pages have appropriate labels: ux walkthrough manual release cognitive accessibility protocol heuristic etc. - moved up to Current List
8. Check that all the **Related Links** boxes contain appropriate links and descriptions - we have moved things around a bit and some descriptions may be inaccurate. - moved up to Current List
9. Ensure that the [Accessibility Review Protocols](#) child pages make reference to the correct versions of software - Firefox 3 etc. (Mike will do this.) - moved up to Current List
10. Remove all the yellow work-in-progress notes. **Done** by Paul
11. Complete the [Persona Creation](#) page. **Done** by Daphne
12. Flesh out the [UCD Best Practices](#) page. - moved up to Current List.
13. Remove the commented-out text (`{{HTMLcomment:hidden}}`) from the pages, or relocate it to other pages where appropriate. **Done** by Paul
14. Tighten up the excerpt text descriptions in the Evaluations and Assessments section of the DH page. **Done** by Paul
