

Fluid logo (old)

You may download several versions of any graphic below. The graphics are organized into two categories:

1. PRINT
2. WEB

The vector version of Fluid and Decapod logos can be found in this Illustrator file: [Logos.ai](#)

PRINT

The graphic in his section are organized into three categories:

- A. Downloadable Transparent Logos in PNG format
- B. Downloadable Office Document Files in TIF format
- C. Downloadable Professional Print Files in Photoshop EPS format

Downloadable Transparent Logos in PNG format

Fluid Logo transparent Large*
 The image shows the Fluid logo in a large size. The word "Fluid" is written in a green, sans-serif font. Above the letter 'i' is a purple asterisk-like symbol with six points. The entire logo is centered on a white background.
Right mouse click this link to Save*
Name: transLogolg.png Kind: PNG

Fluid Logo transparent Small*
 The image shows the Fluid logo in a small size. The word "Fluid" is written in a green, sans-serif font. Above the letter 'i' is a purple asterisk-like symbol with six points. The entire logo is centered on a white background.
Right mouse click this link to Save*
Name: transLogosm.png Kind: PNG

Downloadable Office Document Files (TIF) 300dpi

These images are for high quality printing from your personal/office desktop printer. Office publication software includes but is not limited to: Word, PowerPoint, Excel, and Publisher.

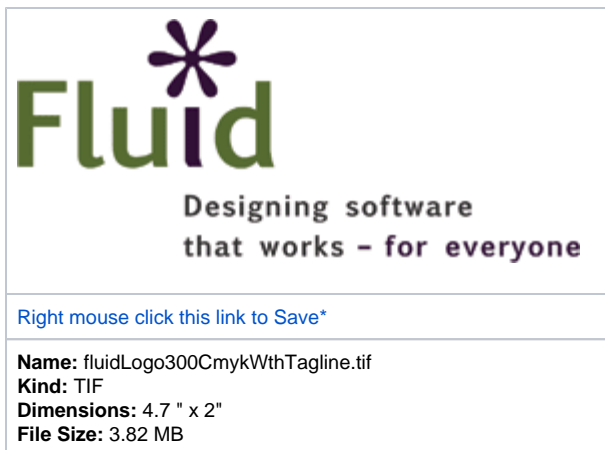

They can be proportionately scaled down in the previous listed applications by clicking and dragging the corners of the bounding box. Increasing the size will result in a loss of quality.

*To save TIF files, right-click on the [link](#) to the version of your choice and select "Save Target As..." or "Save Link As..." to save to your computer. Right-clicking on an image and saving will result in saving the low-resolution web version.

Downloadable Professional Print Files (CMYK) 300dpi

These images are designed for professional printing projects. They are in Photoshop EPS (Encapsulated Post Script) format saved down to Adobe Photoshop version CS2 for MAC and should only be handled by graphic designers, vendors, and people familiar with EPS files. The images can be viewed using advanced graphics software such as: PageMaker, In-Design, Quark, and Photoshop.
