2012-06-12 Meeting
Tue June 12, 12:00-14:00 UTC

Translate to my time zone

Notice

This meeting is being held as part of the Raising the Floor Consortium. The Raising the Floor membership agreement, in particular its IPR policy, applies to the contents of the meeting.

Attendance

- Andy (Axelrod...)
- Jutta, Colin (ITRC)
- Thomas & Dionysia (certh/iti)
- Liddy (Sunrise ...)
- Matthew (Loughborough University)
- Vassilis (CERTH/IBBR)
- Gottfried, Andreas, Christophe (HDM)
- Kasper (RtF-I)

Updates (including user groups involvement)

W3C has started the IndieUI working group, developing a standard on intentional events. Andy is part of this wg.

The ontology page is being updated. Vassilis can report about this at the next meeting.

Discussion on Profile Structure

Refer to http://wiki.gpii.net/index.php/Discussion_on_Profile_Structure.

We continue our discussion on HdM’s proposal: http://wiki.gpii.net/index.php/HDM_Glossary_Proposals

Decisions:

- Task-force for developing a proposal for a vocabulary to be used in conditions to reference device features
  - Lead: Andreas
- Task-force for developing a proposal for a vocabulary to be used in conditions to reference other context features (e.g. environment, situation, time, location)
  - Lead: Gottfried

Digital Resource Description

Issues:

- Do we need a vocabulary for resource description?
- If yes, do we want to reuse ISO/IEC 24751-3 (which used a simple 1:1-relationship approach)?
- Can we build matchmaking tools that can deal with resources without artificial resource descriptions?
- Can we use schema.org, attributes, and HTML markup to automatically derive metadata on resources? - Currently being explored by IDRC, Andy and others.

We should make metadata as simple and directly attached to resources as possible.

Decision: Wait for results of exploration activities (including Cloud4All WP202).

Standardization - Next Steps for CD

- Create Committee Draft (CD) for part 1: Framework (currently in work)
- One more editors meeting
- Submit CD for ballot at Sep. meeting of SC36 (as promised to SC36)
- Goal to generate discussion in SC36, possibly follow up with 2nd CD or FCD
- Functions of framework doc: Reassure personal preference approach, and reassure registry approach
Action Items

- Look at existing ISO standards that use a registry approach. (See topic 43.)
- Formulate proposals for dealing with conditions (see topic 34).
- Jutta: share a preliminary list of needs & preferences for literacy users.

Future Meetings
Tue Jul 3, 12:00-14:00 UTC

Future Agenda Items
- Presentation on user ontology

Appendix A: Metadata Resources

- Email message by Andy on 2012-02-07. http://lists.idrc.ocad.ca/pipermail/accessforall/2012-February/000034.html
- Schema.org: http://schema.org/
- NSDL Paradata standard: https://nsdlnetwork.org/stemexchange/paradata
- Link to Paradata learning registry: http://www.learningregistry.org

Bridge

   Be sure to set AUDIO to Mic and Speaker (VoIP) - a headset is recommended.

2. Or, call in using your telephone.
