

OSDPL Working Group

This is the collaboration space for the Open Source Design Pattern Library working group.

We are currently defining the mission, goals, scope and infrastructure of the OSDPL, and in the future the group will focus on adding patterns to and expanding the library.

Current Status

The OSDPL is usable and online. Please visit the [OSDPL website](#) to see the latest iteration. Please try it out and give use feedback.

The OSDPL is currently in the [Governance development phase](#) (second phase of three). Issues revolve around the processes of adding, editing, and accessing design patterns on the OSDPL website.
