

fluid.allocateGuid

This functionality is [Sneak Peek](#) status. This means that the **APIs may change**. We welcome your feedback, ideas, and code, but please use caution if you use this new functionality.

fluid.allocateGuid()

Allocate an integer value that will be unique for this session.

```
fluid.allocateGuid();
```

File name: Fluid.js

Parameters

None

Return Value

integer

See Also

- [fluid.allocateSimpleId](#)

Notes

The framework keeps track of allocated guides internally, incrementing each time a new guid is used.

Example

```
var uniqueId = fluid.allocateGuid();
```
