

# Learning Commons Resources License Selection Research

Some questions to answer:

- What licenses should be available?
- How does someone choose the right one? Do we create a resource explaining this? License selection can have some consequences (i.e. can not revoke a CC license once given)?
- What licenses are coops already using?
- If they haven't considered a license, what features are important to them? What are their concerns?

Some possible licenses to consider:

- CC and derivatives
- ECL
- Public Domain
- Copyright

License chooser exemplars:

- Choose an open source license (for code) - <https://choosealicense.com/>
- Creative Commons license chooser (for content) - <https://creativecommons.org/choose/>
- Freedom Defined list of licenses (incl. table) - <https://freedomdefined.org/Licenses>
- Civic Commons - [http://wiki.civiccommons.org/Choosing\\_a\\_License/](http://wiki.civiccommons.org/Choosing_a_License/)
