

# Embedded Infusion license

## License Text for Inclusion in Infusion Source Code Files

The text below is a template to be customized to designate the year and copyright owner and to be included at the beginning of each source code file. There is also a LICENSE file at the root of the directory tree. The copyright notice embedded in the file itself can be different than the copyright notice in the LICENSE file, in which case the copyright notice in the LICENSE file applies to the "collective work" and the embedded copyright notice applies to the contents of the file itself.
