

# Thumbnail in Table Example

This page is simply a demonstration of how to reference screenshots in a table.

## Login

Usability Issues	Principle	Priority	Suggestions for solution	Component Identified?	Screen Shot
 Match between registration and login term (CWL)	Consistency and standards				 Unknown Attachment
 Standard login form	Consistency and standards				
 Documentation/explanation of CWL and login form	Help and Documentation				
 Help links are present in forgot password, contact us, and help desk	Help and Documentation		More prominence to the login help links		
 Notation of downtime and instructions for how to avoid error/lost information	Error Prevention		Probably should be highlighted as a warning
